

Launching the MESO and TVS Tables

[Print](#)

Purpose:

This task demonstrates how to launch the MESO and TVS Tables from the Storm Cell Table, and it requires mesocyclone and TVS products (best done on WES-2 Bridge).

Tasks:

Assumptions:

- The SCAN Storm Cells table has been loaded (see previous Tasks)
 - 1** In the CELL Table, **left-click** on the **Tables menu** and select the **MESO Table or TVS Table.**
 - A new table should launch, only the trend set launching will not work on these tables.
 - 2** In the MESO or TVS Table you loaded, **left-click** on the **X button** in the upper-right part of the table.
 - The MESO or TVS Table you loaded should close.
 - 3** Task Complete!
